About the recommendation process:

The Better Schools Kentucky Committee of JCTA examines each candidate's support of public education. This committee, whose members are comprised of teachers, evaluates incumbents' voting records on public education issues and reviews candidates' answers to questions on education issues. After considering all of this information, the committee recommends candidates who are strong advocates for children, teachers and public education; candidates who will listen to the concerns of classroom teachers; and candidates who feel, as we do, that teachers and public schools are important.

2022 Better Schools Kentucky Committee: Cassie Lyles, Chair; Eric Evans, Vice-chair; Amy Biggs; Dale Warren; Katie Cohen; Lydia Jones; Mary Thurman; Don Bacon; Carol Peace; Tamara Patterson; Natalie Rashad
